Highland Lover, left me in love with all the characters (except the bad guys of course)! The whole time I was reading the book, my emotions kept on changing from high to low, and back to high again. I love the historical romance genre so much, but must say that highlanders get me every time! Good list as I have run out of authors to read from this genre that are not smut books...I like a good romance, with the historical aspect, and the tender care they show their loved ones. plus I would love to have someone love me the ways these people seem to love each other.
